SATURDAY AFTERNOON ENCOUNTERS WITH INDONESIA

August 11th, August 25th and September 15th 2018

Meeting people from different cultural backgrounds can help us develop awareness of our own culture. Often only when we meet someone from a different culture that we notice that the basic assumptions are not the same everywhere.

A cultural encounter could mean navigating interactions with someone different from yourself in a way that conveys respect for that person's beliefs and way of life and/or prompts you to discover something new about their world and yours.

MIA is very grateful to Kabo Lawyers for printing this flyer and to Marjorie Ho for hosting most of the presentations
